Prices / Estimates

You can make a automatic cost estimation on our website. The cost estimation allows you to have a rough idea of the costs. *The final prices will be based on the **exact** film length in meters and hours of video tapes.*

Final Media - Tell us how you want your digitized films delivered.

➔ **Option DVD** maximum 400 meters (90 minutes) of films can be placed on each DVD.

 I want my films to be placed on DVD

I want additional copies of the DVD

➔ **External Hard Disk or USB Key**

We recommend that you also get your films in AVI format onto external hard disk or USB key. This would be your digital archives for decades to come. If your DVD get damaged and you have the AVI files, new DVD can easily be made from that AVI files. No need of re-transferring the films or videos.

Please indicate below if you want copy of your films/videos onto external hard-drive or USB Key:

Yes, I want my films copied to external hard-drive in AVI format (prices are on our website)

Yes, I want my films/videos copied to USB Stick in AVI format (prices are on our website)

I want to buy from you the hardware (hard-disk or USB Stick) (prices are on our website)

I will send you my own hard-disk/USB Stick (it must be formatted in NTFS or exFAT).
